

School Improvement Funds Report

2018-2019

The ESEA requires that each SEA that receives Title I funds prepare and disseminate an annual report card. (ESEA section 1111(h)(1)(A)).

April 24, 2020

Leveraging Funding to Support Improvement Goals

All 1003 funding from the Georgia Department of Education (GaDOE) to schools identified as CSI or TSI will be based on the goals identified in common School Improvement Plans that connect with a Comprehensive Needs Assessment, but LEAs may choose not to submit district-level comprehensive needs assessments or improvement plans. 1003 funds are part of the bundle of funding used to support the goals for improvement in identified schools and their LEAs. These processes ensure that identified schools are positioning funds around improvement goals and priorities.

Because the needs assessment and the improvement planning template are built around a state-developed common framework of improvement, the goals generated by schools are able to be served with a more cohesive, effective, and aligned approach at the state, regional, and local levels. As federal appropriations allow, the Georgia Department of Education, at the minimum, will annually award the 1003 fund allotments below for each category of CSI and TSI schools.

As federal appropriations allow, the Georgia Department of Education for the FY19 funding year awarded the 1003 fund allotments below for each category of federal identified schools:

Category	Minimum 1003 Allotment
TSI-Have at least one subgroup that is performing in the lowest 5% of all schools in at least 50% of CCRPI components.	\$75,000.00
ATSI-Among all schools identified for consistently underperforming subgroup, have at least one subgroup that is performing in the lowest 5% of all schools in all CCRPI components	\$75,000.00
CSI – Lowest 5% or former TSI schools	\$150,000.00
CSI – Graduation Rate below 67%; only identification	\$50,000.00
CSI – Alternative Education schools	\$75,000.00
CSI – Promise Schools – Lowest 5.1%-10%	\$20,000.00

Schools identified for CSI support that are selected for turnaround by the Chief Turnaround Officer will receive an additional annual 1003 supplement of \$25,000 per school. Schools that are identified based on multiple criteria will receive the highest amount allotted out of the criteria applicable, excluding alternative schools.

Schools identified for CSI support that are selected for turnaround by the Chief Turnaround Officer will receive an additional annual 1003 supplement of Federal Allocation-----\$25,000 per school. Alternative schools that are identified Educating Georgia’s Future: Georgia’s State ESSA Plan | 51 for CSI support (lowest 5%) will receive an annual 1003 allotment of Federal Allocation-----\$75,000 per school. Schools that are identified based on multiple criteria will receive the highest amount allotted out of the criteria applicable, excluding alternative schools.
